18/10/24, 5:58 p.m. Quiz 4 | Coursera

 Match the following description to the correct term: "If you change how Component A is implementing a certain API, you will have to change how Component B uses that API." Example of High Cohesion Example of Iack of High Cohesion Example of Tight Coupling (lack of Loose Coupling) Example of Loose Coupling Match the following description to the correct term: "Component A has 10 methods." Example of Loose Coupling Example of Tight Coupling Example of Tight Coupling Example of High Cohesion Example of High Cohesion Need more information 			
API." Example of High Cohesion Example of Iack of High Cohesion Example of Tight Coupling (lack of Loose Coupling) Example of Loose Coupling Match the following description to the correct term: "Component A has 10 methods." Example of Loose Coupling Example of Tight Coupling Example of Tight Coupling Example of High Cohesion Example of High Cohesion	1.	Match the following description to the correct term:	1 point
Example of lack of High Cohesion Example of Tight Coupling (lack of Loose Coupling) Example of Loose Coupling Match the following description to the correct term: "Component A has 10 methods." Example of Loose Coupling Example of Tight Coupling Example of Low Cohesion Example of High Cohesion			
Example of Tight Coupling (lack of Loose Coupling) Example of Loose Coupling Match the following description to the correct term: "Component A has 10 methods." Example of Loose Coupling Example of Tight Coupling Example of Low Cohesion Example of High Cohesion		Example of High Cohesion	
Example of Loose Coupling Match the following description to the correct term: "Component A has 10 methods." Example of Loose Coupling Example of Tight Coupling Example of Low Cohesion Example of High Cohesion		Example of lack of High Cohesion	
2. Match the following description to the correct term: "Component A has 10 methods." Example of Loose Coupling Example of Tight Coupling Example of Low Cohesion Example of High Cohesion		Example of Tight Coupling (lack of Loose Coupling)	
"Component A has 10 methods." Example of Loose Coupling Example of Tight Coupling Example of Low Cohesion Example of High Cohesion		Example of Loose Coupling	
Example of Loose Coupling Example of Tight Coupling Example of Low Cohesion Example of High Cohesion	2.	Match the following description to the correct term:	1 point
Example of Tight Coupling Example of Low Cohesion Example of High Cohesion		"Component A has 10 methods."	
Example of Low Cohesion Example of High Cohesion		Example of Loose Coupling	
Example of High Cohesion		Example of Tight Coupling	
		Example of Low Cohesion	
		Example of High Cohesion
